

## Top-Performing Aluminum Photovoltaic Solar Panel Frame for Optimal Energy Conversion

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

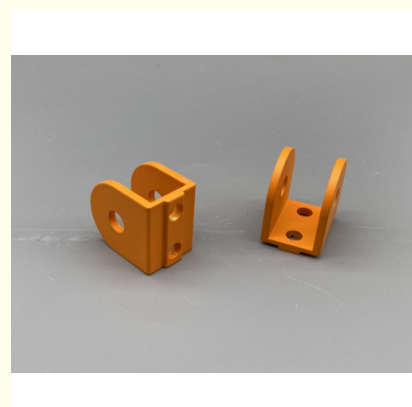

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

### Product Specification

- Oem/Odm: Available
- Material: Aluminum
- Length: Customized
- Color: Black, Orange
- Usage: Solar Panel Frame
- Shape: Customized
- Thickness: Customized
- Application: Solar Energy System
- Highlight: **Top Performing Solar Panel Frame, Optimal Energy Conversion Solar Panel Frame, Aluminum Photovoltaic Solar Panel Frame**

## Product Description

### Product Description:

As an OEM/ODM product, our Solar Panel Aluminium Profile offers flexibility and customization options to meet your requirements. Whether you need a specific design or dimensions, we can provide tailor-made solutions to ensure the perfect fit for your solar panel frame.

Made from durable aluminum material, this profile is lightweight yet strong enough to support solar panels effectively. The use of aluminum ensures longevity and resistance to corrosion, making it an ideal choice for outdoor solar applications. Our Solar Panel Aluminium Profile is specifically designed for photovoltaic systems, offering a reliable and efficient solution for harnessing solar power. The profile is compatible with various solar panel types, providing versatility and compatibility for different installation setups. With a customizable thickness, our Solar Panel Aluminium Profile can be tailored to meet your specific load-bearing requirements. Whether you need a lightweight frame for residential solar panels or a heavy-duty structure for commercial solar arrays, this profile can be adjusted to suit your needs.

The application of power coating on our Solar Panel Aluminium Profile enhances its durability and aesthetic appeal. The power coating provides an extra layer of protection against environmental factors, ensuring that the profile remains in top condition for an extended period.

Whether you are looking to upgrade an existing solar energy system or build a new one from scratch, our Solar Panel Aluminium Profile offers a reliable and cost-effective solution. With its durable construction, customizable features, and compatibility with photovoltaic systems, this profile is an excellent choice for all your solar panel frame needs.

### Features:

Product Name: Solar-Panel Aluminium Profile

Shape: Customized

Feature: Lightweight And Durable

Thickness: Customized

Length: Customized

Oem/Odm: Available

### Technical Parameters:

Application	Solar Energy System
Feature	Lightweight And Durable
Usage	Solar Panel Frame
Thickness	Customized
Shape	Customized
Material	Aluminum
Color	Black, Orange
Width	Customized
Oem/Odm	Available
Length	Customized

### Applications:

The Golden Chain Solar Panel Aluminium Profile is a high-quality product originating from Guangdong, China. With a minimum order quantity of 300 kilograms, this product is ideal for various applications in the solar energy industry. The packaging details include a protective film to ensure the product's integrity during transportation.

Designed for the solar energy system, this aluminium profile is perfect for creating sturdy and reliable frames for photovoltaic panels. The custom thickness allows for flexibility in design, catering to different project requirements. The product features a power coating finish, providing both lightweight and durable properties essential for outdoor use.

Customers can expect a delivery time of 15-30 days after placing their order. The payment terms available for this product include L/C and T/T, offering flexibility and convenience for buyers. Additionally, OEM and ODM services are available, allowing for customization based on specific needs.

Whether for residential, commercial, or industrial solar projects, the Golden Chain Solar Panel Aluminium Profile offers a versatile solution to frame photovoltaic panels with ease. Its lightweight design makes installation straightforward, while its durable construction ensures long-lasting performance in various weather conditions.

### Customization:

Product Customization Services for the Solar Panel Aluminum Profile:

Brand Name: Golden Chain

Place of Origin: Guangdong, China

Minimum Order Quantity: 300 Kilogram  
Packaging Details: Protect film  
Delivery Time: 15-30 days  
Payment Terms: L/C, T/T  
Material: Aluminum  
Length: Customized  
Thickness: Customized  
Feature: Lightweight And Durable  
Usage: Solar Panel Frame

**Packing and Shipping:**

Product Packaging: .....  
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.  
Shipping:  
Ocean, Air, Express

**Golden Chain Products Industrial Co., Ltd.**
