

Lightweight And Durable Solar Panel Aluminium Profile Black Orange Customized Length

Our Product Introduction

for more products please visit us on alu-heatsink.com

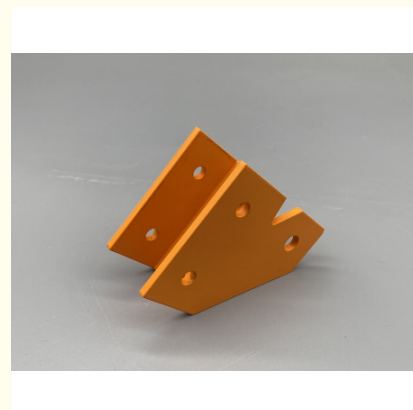

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

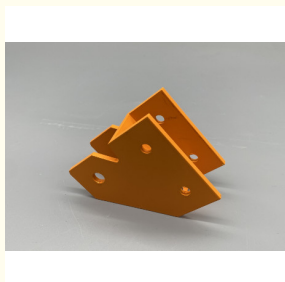

Product Specification

- Oem/Odm: Available
- Shape: Customized
- Width: Customized
- Color: Black, Orange
- Feature: Lightweight And Durable
- Surface Treatment: Power Coating
- Thickness: Customized
- Length: Customized
- Highlight: **Customized Length Solar Panel Aluminium Profile**
, **Lightweight Solar Panel Aluminium Profile**,
Black Orange Solar Panel Aluminium Profile

Product Description

Product Description:

The Solar Panel Aluminium Profile is a versatile and essential component for your solar panel installation needs. With a customized length and width, this product offers flexibility to suit various project requirements. Whether you are looking to set up a small residential system or a large commercial array, this Aluminium Profile is designed to meet your specifications.

One of the standout features of this product is its lightweight and durable nature. Made from high-quality aluminum, this profile provides the strength and stability required to support your solar panels effectively. The combination of lightweight design and sturdy construction ensures easy handling during installation while offering long-term reliability for your solar PV system.

For those in need of customized solutions, the OEM/ODM services available for this Aluminium Profile allow for tailored design and manufacturing according to your specific requirements. This customization option ensures that the profile seamlessly integrates with your solar panel setup, enhancing efficiency and performance.

The Aluminium Photovoltaic Mounting System offers a sleek and professional look to your solar panel installation. The black and orange color options provide a modern and aesthetic appeal, adding a touch of style to your solar energy system. Whether you prefer a classic black finish or a bold orange accent, this Aluminium Profile allows for personalization to match your preferences.

In addition to its customizable features, the Aluminium Profile is coated with a durable power coating finish. This protective coating enhances the profile's resistance to corrosion, weathering, and other environmental factors, ensuring long-lasting performance in various conditions. The power coating not only adds a layer of protection but also contributes to the overall sleek and polished appearance of the profile.

Whether you are a solar energy enthusiast, a professional installer, or a business owner looking to go green, the Solar Panel Aluminium Profile is an ideal choice for your solar panel mounting needs. Its combination of customized dimensions, lightweight yet robust construction, color options, and power coating finish make it a reliable and visually appealing solution for your solar PV system.

Features:

Product Name: Solar Panel Aluminium Profile

Length: Customized

Oem/Odm: Available

Material: Aluminum

Width: Customized

Color: Black, Orange

Technical Parameters:

Usage	Solar Panel Frame
Color	Black, Orange
Application	Solar Energy System
Oem/Odm	Available
Length	Customized
Surface Treatment	Power Coating
Feature	Lightweight And Durable
Thickness	Customized
Shape	Customized
Width	Customized

Applications:

The Golden Chain Solar Panel Aluminium Profile is a versatile product designed for a variety of applications in the solar energy industry. With its high-quality aluminum construction, this profile is ideal for use in photovoltaic systems, specifically for mounting solar panels.

Manufactured in Guangdong, China, this product boasts a minimum order quantity of 300 kilograms and comes packaged with protective film to ensure it arrives in perfect condition. The delivery time for this product typically ranges from 15 to 30 days, with payment terms available in both L/C and T/T.

One of the key features of this aluminium profile is its customizability, allowing for shapes and thicknesses to be tailored to specific project requirements. The profile is available in two striking colors - black and orange, adding a touch of aesthetics to its functionality.

The Golden Chain Solar Panel Aluminium Profile is best suited for use in solar energy systems, where its lightweight yet durable design provides the necessary support for photovoltaic panels. Whether for residential, commercial, or industrial applications, this profile offers a reliable solution for mounting solar panels securely and efficiently.

Whether you are setting up a small-scale solar power system or a large photovoltaic array, the Golden Chain Aluminium Profile is a dependable choice that combines strength and versatility. Its compatibility with aluminium photovoltaic mounting systems further enhances its utility, making it an essential component for solar projects of all sizes.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:
Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Usage: Solar Panel Frame
Feature: Lightweight and Durable
OEM/ODM: Available
Width: Customized
Length: Customized
Keywords: Solar, Aluminium Photovoltaic Mounting System

Packing and Shipping:

Product Packaging:
The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
