

Customized Thickness Power Coating Solar Panel Aluminium Profile Perfect Solution for Coating Needs

Our Product Introduction

for more products please visit us on alu-heatsink.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Golden Chain
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: protect film
- Delivery Time: 15-30 days
- Payment Terms: L/C, T/T

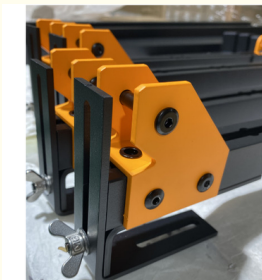

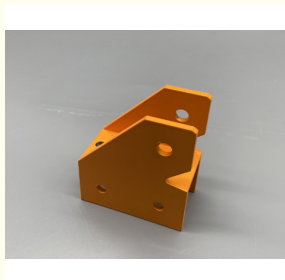

Product Specification

- Material: Aluminum
- Length: Customized
- Usage: Solar Panel Frame
- Oem/Odm: Available
- Width: Customized
- Feature: Lightweight And Durable
- Color: Black, Orange
- Shape: Customized
- Highlight: Customized Thickness Power Coating, Power Coating Solar Panel Aluminium Profile

Product Description

Product Description:

The Solar Panel Aluminium Profile is a versatile product designed for creating durable and lightweight frames for photovoltaic solar panels. With customizable width, length, and thickness, this aluminium profile offers flexibility and convenience for various solar panel installations.

Constructed with high-quality aluminium material, this profile is ideal for supporting and framing solar panels, ensuring long-lasting performance and reliability. The use of aluminium makes it lightweight, yet strong enough to withstand outdoor elements and environmental factors, providing a secure structure for solar panels to harness sunlight and generate power efficiently.

The Solar Panel Aluminium Profile is specially designed for the solar industry, offering a reliable solution for mounting and securing photovoltaic panels in residential, commercial, and industrial settings. Its customizable dimensions allow for seamless integration with different panel sizes and configurations, making it a versatile choice for various solar projects.

Featuring a sleek design and a power coating finish, this aluminium profile not only provides structural support but also enhances the overall aesthetics of solar panel installations. The power coating adds an extra layer of protection against corrosion and weathering, ensuring that the frames remain in top condition for years to come.

Whether you are setting up a small rooftop solar array or a large-scale solar farm, the Solar Panel Aluminium Profile offers the durability and performance needed to support your photovoltaic panels effectively. Its lightweight nature makes it easy to handle and install, saving time and effort during the setup process.

One of the key advantages of this aluminium profile is its versatility in accommodating various solar panel sizes and configurations. Whether you need a custom frame for a specific project or a standard solution for general applications, the customizable dimensions of this profile allow for seamless adaptation to your requirements.

Designed to meet the demands of the solar industry, the Solar Panel Aluminium Profile is engineered for durability and longevity. Its sturdy construction and weather-resistant properties make it an ideal choice for outdoor solar installations, ensuring that your panels are securely mounted and protected from environmental elements.

In addition to its practical functionality, this aluminium profile also offers a sleek and modern appearance, enhancing the visual appeal of solar panel arrays. The power coating finish not only provides a smooth and professional look but also adds an extra layer of defense against UV rays, moisture, and other external factors that could affect the performance of the frames.

Whether you are a solar panel installer, a renewable energy enthusiast, or a commercial developer looking to incorporate solar power into your projects, the Solar Panel Aluminium Profile offers a reliable and efficient solution for framing and mounting photovoltaic panels. Its customizable dimensions, lightweight design, and durable construction make it a smart choice for various solar applications.

Invest in the Solar Panel Aluminium Profile today and experience the benefits of a high-quality, versatile, and long-lasting framing solution for your solar panel installations. With its customizable features, power coating finish, and lightweight yet sturdy design, this aluminium profile is the perfect choice for creating secure and efficient solar arrays that harness the power of the sun for renewable energy generation.

Features:

Product Name: Solar Panel Aluminium Profile

Width: Customized

Shape: Customized

Oem/Odm: Available

Feature: Lightweight And Durable

Application: Solar Energy System

Technical Parameters:

Feature	Lightweight And Durable
Width	Customized
Application	Solar Energy System
Shape	Customized
Thickness	Customized
Usage	Solar Panel Frame
Color	Black, Orange
Surface Treatment	Power Coating
Oem/Odm	Available
Length	Customized

Applications:

Product Application Occasions and Scenarios for the Solar Panel Aluminium Profile:

The Golden Chain Solar Panel Aluminium Profile, originating from Guangdong, China, is a versatile product suitable for various applications in the photovoltaic industry. With a minimum order quantity of 300 kilograms, this product is ideal for both small and large-scale solar panel projects.

The packaging details include a protective film to ensure the profiles are delivered in pristine condition. The delivery time for the Solar Panel Aluminium Profile is between 15-30 days, providing a quick turnaround for project timelines. Payment terms accepted for this product are L/C and T/T, offering flexibility for customers.

Customization is a key feature of the Golden Chain Solar Panel Aluminium Profile, with the length and width being tailored to meet specific project requirements. This product also supports OEM/ODM orders, enabling customers to create unique solar panel frames. The Solar Panel Aluminium Profile is designed for the construction of solar panel frames, offering a durable and reliable solution for photovoltaic installations. The profiles are available in black and orange colors, providing options to match different design aesthetics. Coated with power coating, the aluminium profiles offer enhanced protection against environmental factors, ensuring longevity and performance in various weather conditions. Whether it's for residential, commercial, or industrial solar panel projects, the Golden Chain Solar Panel Aluminium Profile is a dependable choice.

Customization:

Product Customization Services for the Solar Panel Aluminium Profile:

Brand Name: Golden Chain
Place of Origin: Guangdong, China
Minimum Order Quantity: 300 Kilogram
Packaging Details: Protect film
Delivery Time: 15-30 days
Payment Terms: L/C, T/T
Color: Black, Orange
Length: Customized
Material: Aluminum
Thickness: Customized
Shape: Customized

Packing and Shipping:

Product Packaging:

The Solar Photovoltaic Panels Frame Alu Profile is carefully packaged to ensure safe delivery.
Shipping:
Ocean, Air, Express
