

## Excellent Corrosion Resistance And Waterproof Aluminum Enclosure For Heavy-Duty Applications

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

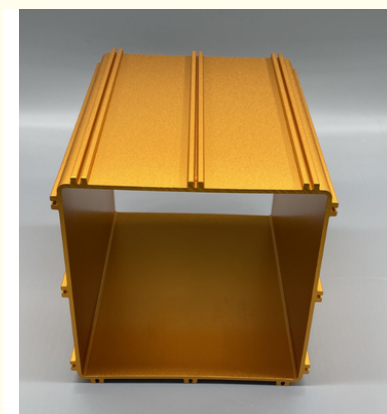

### Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300Kilogram
- Packaging Details: Carton
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T

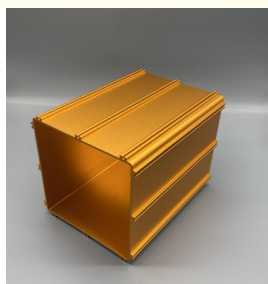

### Product Specification

- Design: Sleek
- Compatibility: Universal
- Size: Customizable
- Corrosion Resistance: Excellent
- Type: Battery
- Maintenance: Low
- Heat Resistance: Good
- Waterproof: Yes
- Highlight: **Corrosion Resistance Aluminum Enclosure, Waterproof Heavy Duty Aluminum Enclosure**

## Product Description

### Product Description:

The Aluminum Enclosure is a high-quality product designed for durability, making it an ideal choice for various applications. Constructed from anodized aluminum, this enclosure offers excellent protection for the contents inside while maintaining a sleek and professional appearance.

One of the key features of the Aluminum Enclosure is its low maintenance requirements. The anodized aluminum material is resistant to corrosion and wear, ensuring that the enclosure remains in top condition with minimal upkeep. This makes it a cost-effective solution for long-term use.

In addition to being low maintenance, the Aluminum Enclosure is also shockproof, providing added protection for sensitive equipment or components housed within. The sturdy construction of the enclosure helps to absorb and dissipate impact forces, reducing the risk of damage from accidental drops or bumps.

Furthermore, the Aluminum Enclosure is waterproof, offering reliable protection against moisture and environmental elements. This feature enhances the versatility of the enclosure, allowing it to be used in outdoor or harsh environments without compromising the integrity of the contents inside.

With its high durability and robust construction, the Aluminum Enclosure is built to withstand the rigors of daily use. Whether it is used in industrial settings, outdoor applications, or other demanding environments, this enclosure is designed to provide long-lasting performance and protection.

The square design of the Aluminum Enclosure offers a versatile and practical solution for housing battery components. The shape allows for efficient use of space and easy integration with other equipment or systems, making it suitable for a wide range of battery applications. Overall, the Aluminum Enclosure is a reliable and versatile product that combines high durability, low maintenance, shockproof and waterproof features. Its anodized aluminum construction, square design, and compatibility with battery applications make it a valuable asset for various industries and projects.

### Features:

Product Name: Aluminum Enclosure

Maintenance: Low

Durability: High

Design: Sleek

Installation: Easy

Compatibility: Universal

### Technical Parameters:

Size	Customizable
Design	Sleek
Shockproof	Yes
Maintenance	Low
Waterproof	Yes
Type	Battery
Durability	High
Material	Aluminum6063
Corrosion Resistance	Excellent
Installation	Easy

### Applications:

When it comes to the versatile Aluminum Enclosure product from No Brand, there are a wide range of application occasions and scenarios where it can be effectively utilized. Crafted in China, Guangdong, this enclosure is designed to meet a variety of needs with its customizable size and high durability.

One of the key features of this enclosure is its anodized aluminum construction, which not only provides a sleek and modern look but also ensures that it is waterproof, making it suitable for outdoor use. This makes it an ideal choice for outdoor electronic installations, such as security cameras, outdoor lighting systems, or weather monitoring equipment.

With a minimum order quantity of 300 kilograms, these enclosures are perfect for manufacturers or businesses looking to incorporate them into their products. The universal compatibility of the Aluminum Enclosure makes it a versatile option for a wide range of industries, including electronics, telecommunications, and automotive.

Thanks to its customizable size, these enclosures can be tailored to fit specific equipment or devices, making them a great choice for custom electronic projects or prototypes. The anodized finish not only provides a professional appearance but also adds an extra layer of protection against wear and tear.

Whether you need to protect sensitive electronic components, create a weatherproof housing for outdoor equipment, or design a custom enclosure for a specialized device, the Aluminum Enclosure from No Brand is a reliable and practical solution. With a delivery time of 15-20 workdays and flexible payment terms including L/C and T/T, incorporating these enclosures into your projects is convenient and

efficient.  
Each Aluminum Enclosure is packaged securely in a carton, ensuring that they arrive in perfect condition and ready for use. Available in a range of customized colors, these enclosures can be tailored to match your brand or project aesthetic, adding a personalized touch to your final product.

**Customization:**

Product Customization Services for the Aluminum Enclosure: -----  
Brand Name: No Brand  
Place of Origin: China,Guangdong  
Minimum Order Quantity: 300 Kilogram  
Packaging Details: Carton  
Delivery Time: 15-20 Workdays  
Payment Terms: L/C, T/T  
Design: Sleek  
Corrosion Resistance: Excellent  
Size: Customizable  
Color: Customized  
Shockproof: Yes  
Additional Attributes: Anodized, Battery, Aluminum

**Packing and Shipping:**

Product Packaging: -----  
The Aluminum Enclosure is carefully packaged in a sturdy cardboard box to ensure safe delivery.  
Shipping:  
Ocean, Air, Express

**Golden Chain Products Industrial Co., Ltd.**
