

Customizable Aluminum Enclosure Waterproof and Innovative for Your Business Needs

Our Product Introduction

for more products please visit us on alu-heatsink.com

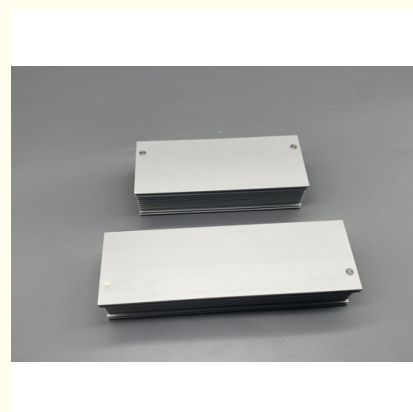

Basic Information

- Place of Origin: China, Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: Carton
- Delivery Time: 15-20 Workdays
- Payment Terms: L/C, T/T

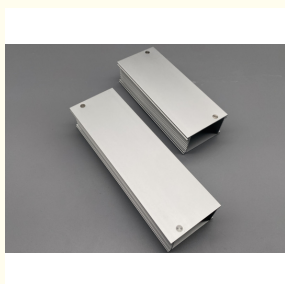

Product Specification

- Color: Customized
- Durability: High
- Design: Sleek
- Type: Battery
- Installation: Easy
- Heat Resistance: Good
- Maintenance: Low
- Waterproof: Yes
- Highlight: Customizable Aluminum Enclosure, Waterproof Aluminum Enclosure

Product Description

Product Description:

Introducing our top-of-the-line Aluminum Enclosure, a premium product designed to meet the highest standards of quality and functionality. This sleek and modern enclosure is the perfect solution for housing various electronic components, providing optimal protection and durability.

The Aluminum Enclosure is available in a variety of customized colors, allowing you to choose the perfect finish to complement your device or project. The anodized aluminum construction not only enhances the aesthetics of the enclosure but also adds an extra layer of protection against corrosion and wear, ensuring a long-lasting and pristine appearance.

Constructed from high-quality aluminum, this enclosure offers exceptional durability, making it ideal for demanding applications where reliability is paramount. Whether you are looking to protect sensitive electronic equipment or house a battery system, this enclosure is built to withstand the rigors of daily use and provide reliable performance for years to come.

Designed specifically for battery applications, this enclosure features a square shape that maximizes internal space while maintaining a compact and versatile form factor. The square design allows for efficient placement of battery cells and components, optimizing the layout and ensuring optimal performance of the enclosed system.

In addition to its durability and customizable color options, the Aluminum Enclosure boasts excellent heat resistance, allowing it to effectively dissipate heat generated by enclosed components. This heat resistance is crucial for maintaining the optimal operating temperature of sensitive electronics and battery systems, ensuring reliable performance under varying environmental conditions.

Furthermore, the Aluminum Enclosure is shockproof, providing an added layer of protection against impact and vibration. This feature is essential for applications where the enclosure may be exposed to rough handling or mechanical stress, ensuring that your enclosed components remain safe and secure in any operating environment.

Whether you are designing a portable electronic device, a battery-powered system, or any other application that requires a high-quality enclosure, our Aluminum Enclosure is the perfect choice. With its customizable color options, high durability, square design, anodized aluminum construction, good heat resistance, and shockproof capabilities, this enclosure offers unbeatable protection and reliability for your valuable components.

Features:

Product Name: Aluminum Enclosure

Design: Sleek

Material: Aluminum6063

Durability: High

Heat Resistance: Good

Corrosion Resistance: Excellent

Technical Parameters:

Type	Battery
Waterproof	Yes
Shockproof	Yes
Size	Customizable
Corrosion Resistance	Excellent
Heat Resistance	Good
Installation	Easy
Durability	High
Color	Customized
Design	Sleek

Applications:

The Aluminum Enclosure by No Brand, originating from Guangdong, China, is a versatile product suitable for a variety of applications and scenarios. With a minimum order quantity of 300 kilograms, this product is ideal for both small and large-scale projects.

The Aluminum Enclosure is perfect for use in battery-related applications due to its durable construction and sleek design. Its waterproof feature ensures protection for the enclosed components, making it suitable for outdoor use in various weather conditions.

Thanks to its customizable size, the Aluminum Enclosure can be tailored to fit specific requirements, allowing for a perfect fit for different battery types. The anodized finish not only provides a stylish look but also adds an extra layer of protection against corrosion and wear.

The easy installation process of the Aluminum Enclosure makes it convenient for DIY enthusiasts and professionals alike. Whether for personal projects or commercial applications, this product offers a hassle-free setup that saves time and effort.

When it comes to packaging, the Aluminum Enclosure is carefully packed in cartons to ensure safe transportation and delivery. With a delivery time of 15-20 workdays, customers can expect prompt receipt of their orders. Payment terms include L/C and T/T, providing flexibility for a seamless transaction process.

In summary, the Aluminum Enclosure is a square-shaped, anodized product that combines functionality with style. Its waterproof design, customizable size, and easy installation make it a top choice for various battery applications. Whether for electronic projects, industrial

use, or personal hobbies, this product offers reliability and convenience for a wide range of occasions and scenarios.

Customization:

Product Customization Services for the Aluminum Enclosure: -----
Brand Name: No Brand
Place of Origin: China, Guangdong
Minimum Order Quantity: 300 Kilograms
Packaging Details: Carton
Delivery Time: 15-20 Workdays
Payment Terms: L/C, T/T
Maintenance: Low
Heat Resistance: Good
Compatibility: Universal
Material: Aluminum 6063
Color: Customized

Packing and Shipping:

Product Packaging:
The Aluminum Enclosure is carefully packaged in a sturdy cardboard box to ensure safe delivery.
Shipping:
Ocean, Air, Express
