

## Aluminum Profile for Surface Mount Installation Strip Light with Customizable Length

Our Product Introduction

for more products please visit us on [alu-heatsink.com](http://alu-heatsink.com)

### Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300Kilogram
- Packaging Details: Carton
- Delivery Time: 15-30days
- Payment Terms: L/C, T/T

### Product Specification

- Color: Customized
- Surface Treatment: Customized
- Durability: High
- Shape: Customized
- Installation Type: Surface Mount
- Corrosion Resistance: Yes
- Thickness: Customizable
- Length: Customizable
- Highlight: **Aluminum Profile for Strip Light, Customizable Length LED Aluminum Profile**

## Product Description

### Product Description:

The LED Aluminum Profile is a versatile lighting solution designed for education LED light applications. Crafted from high-quality Aluminum 6063 material, this product offers exceptional durability and longevity for surface mount installations.

With customizable length and thickness options, the LED Aluminum Profile can be tailored to suit various lighting requirements in educational settings. Whether used in classrooms, laboratories, or libraries, this profile provides a seamless integration with strip light fixtures, enhancing the overall lighting experience.

One of the key features of the LED Aluminum Profile is its corrosion resistance, ensuring that it maintains its structural integrity even in challenging environments. This makes it an ideal choice for educational facilities where durability and reliability are paramount.

By incorporating the LED Aluminum Profile into your education LED light setup, you can create a well-lit and conducive learning environment for students and educators alike. The profile's sleek design and customizable options make it easy to achieve the desired lighting effect while maintaining a clean and modern aesthetic.

Whether you are looking to illuminate a classroom, hallway, or common area, the LED Aluminum Profile offers a flexible and efficient solution for your lighting needs. Its compatibility with strip light fixtures makes it a versatile choice for a wide range of educational applications.

Upgrade your education LED light system with the LED Aluminum Profile and experience enhanced lighting performance and energy efficiency. With its durable construction, customizable options, and corrosion resistance, this profile is a reliable and long-lasting solution for educational environments.

### Features:

Product Name: LED Aluminum Profile

Installation Type: Surface Mount

Durability: High

Corrosion Resistance: Yes

Application: Lighting Industry

Material: Aluminum 6063

### Technical Parameters:

Width	Customizable
Surface Treatment	Customized
Color	Customized
Durability	High
Thickness	Customizable
Application	Lighting Industry
Length	Customizable
Material	Aluminum 6063
Shape	Customized
Installation Type	Surface Mount

### Applications:

LED Aluminum Profile from No Brand is a versatile product that can be used in various applications and scenarios due to its high-quality attributes. Made in China, Guangdong, this product is perfect for customers looking for a reliable and durable solution for their lighting needs.

The LED Aluminum Profile is ideal for use in LED wall washer installations, providing a sleek and modern look to any space. The aluminum material ensures excellent heat dissipation, making it suitable for long-term use in both indoor and outdoor settings. Whether it's for residential or commercial purposes, this product offers superior performance and longevity.

For educational settings, the LED Aluminum Profile is a great choice for implementing energy-efficient lighting solutions. Its customizable thickness and width allow for tailored installations that meet specific requirements. The surface mount installation type makes it easy to set up, saving time and effort for educational institutions looking to upgrade their lighting systems.

With corrosion resistance built-in, this product is also suitable for use in areas where moisture or harsh environmental conditions are a concern. The surface treatment can be customized to further enhance its durability and aesthetic appeal, ensuring that it remains in top condition even in challenging environments.

Customers can order the LED Aluminum Profile in a minimum quantity of 300 kilograms, with packaging details provided in cartons for safe transportation. The delivery time of 15-30 days ensures that orders are fulfilled in a timely manner, while the payment terms of L/C and T/T offer flexibility for different purchasing preferences.

### Customization:

Product Customization Services for LED Aluminum Profile: .....

- Brand Name: No Brand
- Place of Origin: China, Guangdong
- Minimum Order Quantity: 300 Kilogram
- Packaging Details: Carton
- Delivery Time: 15-30 days
