Product Description

Product Description:

The LED Aluminum Profile is a high-quality lighting product designed for the lighting industry. It is made from durable Aluminum 6063 material, ensuring a long-lasting and reliable performance. The surface treatment of the profile is customizable, allowing for a personalized finish that suits your specific needs.

One of the key features of this LED Aluminum Profile is its customizable length, giving you the flexibility to create lighting solutions tailored to your project requirements. Whether you need a short profile for a small installation or a longer one for a larger project, this product can be customized to fit your needs perfectly.

The LED Aluminum Profile is ideal for various applications in the lighting industry, including but not limited to LED wall washer installations. Its high durability makes it suitable for both indoor and outdoor use, providing a versatile solution for a wide range of lighting projects.

LED wall washers are a popular lighting choice for many applications, as they can illuminate large surfaces evenly and create a visually appealing lighting effect. The LED Aluminum Profile is designed to work seamlessly with LED wall washer lights, ensuring a professional and polished finish for your lighting design.

With its high durability and customizable features, the LED Aluminum Profile offers a reliable and versatile solution for your lighting needs. Whether you are working on a residential, commercial, or industrial project, this product can help you achieve the desired lighting effects with ease.

Invest in the LED Aluminum Profile today and take your lighting projects to the next level. Its quality construction, customizable length, and compatibility with LED wall washer lights make it a valuable addition to any lighting design toolkit. Experience the difference that this premium lighting product can make in enhancing the ambiance and aesthetics of your space.

Features:

Product Name: LED Aluminum Profile

Length: Customizable

Application: Lighting Industry

Material: Aluminum 6063

Surface Treatment: Customized

Shape: Customized

Technical Parameters:

Heat Dissipation	Efficient
Length	Customizable
Thickness	Customizable
Material	Aluminum 6063
Shape	Customized
Corrosion Resistance	Yes
Application	Lighting Industry
Color	Customized
Width	Customizable
Installation Type	Surface Mount

Applications:

The LED Aluminum Profile from No Brand, originating from China, Guangdong, is a versatile product suitable for a variety of applications due to its aluminum 6063 material composition. With a minimum order quantity of 300 kilograms, this product is ideal for both small and large-scale projects.

The customizable length and width of the aluminum profile make it adaptable to different installation requirements, allowing for a seamless integration with various lighting setups. Its corrosion-resistant properties ensure long-lasting durability, making it a reliable choice for both indoor and outdoor use.

One of the key features of this LED Aluminum Profile is its efficient heat dissipation, which is crucial for maintaining the longevity and performance of LED strip lights. This makes it an excellent choice for lighting projects where heat management is essential.

Whether it's for residential, commercial, or industrial purposes, this product is a perfect fit for creating professional lighting setups. The packaging details in a carton offer convenience and protection during transportation, while the delivery time of 15-30 days ensures timely arrival of the product.

Customers can benefit from flexible payment terms such as L/C and T/T, making the purchasing process convenient and secure. Overall, the LED Aluminum Profile is a top choice for those seeking a high-quality, customizable solution for their strip light applications.
