Basic Information

- Place of Origin: China,Guangdong
- Brand Name: No Brand
- Minimum Order Quantity: 300Kilogram
- Packaging Details: Carton
- Delivery Time: 15-30days
- Payment Terms: L/C, T/T

Product Specification

- Durability: High
- Material: Aluminum 6063
- Heat Dissipation: Efficient
- Installation Type: Surface Mount
- Width: Customizable
- Thickness: Customizable
- Color: Customized
- Corrosion Resistance: Yes

Product Description:

The LED Aluminum Profile is a versatile and high-quality product designed specifically for the lighting industry. Made of durable Aluminum 6063 material, this profile is perfect for various lighting applications, providing both functional and aesthetic benefits. One of the key features of this LED Aluminum Profile is its efficient heat dissipation properties. This ensures that the LED lights integrated into the profile remain cool and perform optimally, resulting in a longer lifespan for both the lights and the profile itself. The profile is designed for surface mount installation, making it easy to integrate into different lighting setups. Whether you are looking to create ambient lighting, accent lighting, or even LED wall washer effects, this profile is suitable for a wide range of applications. When it comes to customization, the LED Aluminum Profile offers flexibility in thickness, allowing you to tailor it to your specific project requirements. This customizable feature ensures that you can achieve the desired lighting effects with precision and efficiency. Whether you are working on a residential lighting project, a commercial installation, or a creative lighting design, the LED Aluminum Profile is a reliable choice. Its robust aluminum construction not only enhances the durability of the profile but also contributes to its sleek and modern appearance. For projects that require LED strip lights, the LED Aluminum Profile is an ideal choice. It provides a secure and stable housing for the LED strips, protecting them from external elements and ensuring consistent performance over time. In summary, the LED Aluminum Profile is a premium lighting solution that offers efficiency, versatility, and durability. With its aluminum construction, efficient heat dissipation, surface mount installation, and customizable thickness, this profile is a valuable addition to any lighting project requiring LED wall washer or strip light effects.

Features:

- Product Name: LED Aluminum Profile
- Corrosion Resistance: Yes
- Durability: High
- Surface Treatment: Customized
- Material: Aluminum 6063
- Length: Customizable

Technical Parameters:

Corrosion Resistance	Yes
Width	Customizable
Thickness	Customizable
Durability	High
Length	Customizable
Material	Aluminum 6063
Installation Type	Surface Mount
Surface Treatment	Customized
Shape	Customized
Heat Dissipation	Efficient

Applications:

LED Aluminum Profile from No Brand is a versatile product that can be used in a variety of applications and scenarios. With its efficient heat dissipation, customizable length and thickness, high durability, and corrosion resistance, this product is suitable for a wide range of needs. One key application for this LED Aluminum Profile is in strip light installations. Whether for commercial or residential use, these profiles provide a sleek and professional finish to strip light setups. The customizable length and thickness options make it easy to tailor the profile to fit specific lighting projects. Another ideal scenario for using this product is in education LED light installations. LED lighting is becoming increasingly popular in educational settings due to its energy efficiency and long lifespan. The high durability of the aluminum profile ensures that the lighting fixtures will last for years to come, making it a cost-effective choice for schools and educational institutions. Thanks to its corrosion resistance, this LED Aluminum Profile is also suitable for outdoor applications. Whether used for outdoor strip lighting along walkways or for illuminating outdoor signage, this product can withstand various weather conditions without deteriorating. Manufactured in Guangdong, China, this product has a minimum order quantity of 300 kilograms and is packaged in cartons for convenient shipping. The delivery time ranges from 15 to 30 days, and payment terms accepted include L/C and T/T.

Customization:

Product Customization Services:
For our LED Aluminum Profile product, we offer comprehensive customization services to meet your specific requirements:

Brand Name: No Brand

Place of Origin: China, Guangdong

Minimum Order Quantity: 300 Kilogram

Packaging Details: Carton

Delivery Time: 15-30 days

Payment Terms: L/C, T/T

Surface Treatment: Customized

Color: Customized

Corrosion Resistance: Yes

Material: Aluminum 6063

Thickness: Customizable

Our customization services allow you to tailor the LED Aluminum Profile to your specific needs, ensuring it perfectly fits your requirements for aluminum strip light and LED wall washer applications.

Packing and Shipping:

Product Packaging:

The LED Aluminum Profile is carefully packaged in a sturdy cardboard box to ensure safe transportation.

Shipping:

Ocean, Air, Express
